

Delivering Green Infrastructure for Sustainable Growth

6Cs Green Infrastructure Strategy Launch and Workshop - 5th July 2010

FREE EVENT - BioCity Nottingham, Pennyfoot Street, Nottingham NG1 1GF

www.emgin.org/6cs

The 6Cs Strategic Green Infrastructure Board is launching the Green Infrastructure Strategy for the sub-region. The 6C's partnership has been working together across Leicestershire, Derbyshire and Nottinghamshire for the last two years to produce this exciting and important new strategy. The event programme will aim to illustrate how Green Infrastructure can help local authorities, the third sector and regional bodies deliver in partnership on a wide range of environmental and public health benefits, such as climate change adaptation, flood risk management and improved access to natural green space.
